**Engineer in the State of Florida,**

Petitioner(s),

**DEMAND FOR JURY TRIAL**

v.

**Donald J. Trump, et al**

Defendant(s).

**Objection to Order to Dismiss Case**

Plaintiff, Joseph D. Gilberti, PE, Pursuant to FRCP hereby object to the order received November 25, 2024, in Sarasota Jail dated (November 19, 2024, Docket # 12) reasons for objections are as follows:

1. This Court is in Conflict of interest pursuant to the motion to recuse filed prior to the order.
2. This court dismissed the case retroactive on the filing Gilberti v Melania Trump et al. (9:24-cv-81427). In an ongoing systematic scheme to defraud the public of primary water access (spring water) and build in palm beach county unnecessary \$400-million-dollar desalinization plant.
3. This court disregarded the public health and the safety of the citizens by ignoring the mandamus and the fix from plaintiffs' consultants to remove GMO ethanol created by the ACOE with a Dow Chemical/GE grant for \$300 million in 2016 by a lawyer/judge sitting in a chair with no experience in water supply or blue green algae cleanup.
4. This Court Judge Middle Brooks timed his dismissal with Judge Leibowitz who is in conflict with Marco rubio due to Judge Leibowitz family funding Rubio's campaign in 2016 who trump has named defense secretary.
5. This court must take judicial notice of Gilberti v Ashley Moody Mandamus in Leon County FL and Gilberti v Secret Service in Boston MA and Gilberti v Melania Trump in Southern District Florida. All 3 cases demonstrate the attack by Florida Us leaders judges and civil servants to suppress the primary water access and said issues using HR 5736 approved May 10, 2012 retroactive with Plaintiff's SWFWMD meeting with resource at Cecil Daughtry ranch located at 9438 Daughtry Road Sarasota FL 34266 approximately 2000 ft below well number 2 north of Clark Road on Plaintiff's property that is still in title dispute from a fraud transfer by Sarasota County Commission and 72 partners LLC. See Circuit 12 case 2019 CA 04532 NC Gilberti v 72 Partners et al.

6. FBI contacted plaintiff and is investigated said issues from judges calling the water supplies fictitious see Gilberti v George Bush in New York Southern District.
7. AMPS Aquifer Maintenance in palm beach county maintains aquifers in palm beach county has verified all claims that this court claims frivolous without any experience or allowing the plaintiff to help the public.
8. This case is tied to Gilberti v George bush in New York Southern District Court and New Jersey District Court in Newark and is fully aware of it and has sabotaged this case for unknown gains to be seen as this judge is now named in Gilberti v Rockefeller and Melania trump.

Plaintiff hereby requests this court to reinstate the case and issue summons so defendants can work with plaintiff to fix said issues or crossclaim bad defendants causing the said issues.

**Certificate of Service**

I hereby Certify that a copy of the objection to order of dismissal was filed on November 25, 2024, at Florida Southern District Clerk of Court.

not to release lake water east into the St. Lucie River. Citing public safety, the Corps decided to release the water anyway.

"We are one of the exit valves, the safety valves for when the lake builds up to high levels," Fielding explains. "It was an enormously unusual wet year. The lake can build up six times faster that we're able to release."

The Corps is keeping the water level low in Lake Okeechobee to prevent a possible breach of the 80-year-old earthen dike that surrounds the lake — a breach that could be catastrophic and lead to flooding in nearby communities.

Because of the massive algae bloom, Florida Gov. Rick Scott has asked President Obama to declare a federal emergency and make federal emergency funds available. The White House rejected the request, saying Florida has the resources to handle the problem itself. Scott is appealing the decision.

Mark Perry is the executive director of the Florida Oceanographic Society, an environmental education and research center in Stuart. He agrees that the Obama administration and federal agencies like the U.S. Fish and Wildlife Service, the National Oceanic and Atmospheric Administration, and even the Centers for Disease Control and Prevention should be involved in managing the algae crisis.

But the long-term solution, he says, is to restore the region's natural flow — and send water from Lake Okeechobee south through lands farmed by some of the nation's largest sugar producers.

Florida Gov. Rick Scott has asked President Obama to declare a federal emergency and make federal emergency funds available to deal with the algae bloom.

## I. Jurisdiction

- (15) "This court has jurisdiction to issue writs of mandamus Art. V., § 5(b), Fla. Const." While Circuit 12 & 13, for Sarasota and Hillsborough are in extreme conflict as well as Cir 17 & 20 due to 'Organized Fraud' attack by their endless Cops, Judges, Courts, local Builders/Developers, FBI agents, US Marshals, Secret Service which are shown on website [www.GilbertBlueGold.com](http://www.GilbertBlueGold.com) and (videos attacking) other Plaintiffs see Petitioner, attacking his kids, home, rights, clients. <sup>Hence</sup> kids
- (16) This attack is due to Petitioner's 'find of a 'unique aquifer' never seen on Earth, his client's access, mineral rights and Petitioner's 12yrs of exposure with Statewide Civil Engineering Infrastructure Plans to provide a Statewide Antioxidant spring water connection to Taps of Homes, Businesses, Hospitals, Schools, Parks. The criminals have gone to time terrorist events / Dissemination with Media / Ross Desantis, Trump, Biden, Media per Title 22 USC with H.R. 5736 to attack.
- (17) The aquifer demonstrates Global underground knowledge of 'New Water Origin' Theories, no Judge or lawyer can determine. The DOJ with Sarasota, Tampa, West to South Florida has plans decided to attack EVERYONE since Obama attacked 12 days after find. Then Trump, Biden, Rick Scott, and Rest. It's Communism on Florida!
- \* (18) Otherwise, come to site, 2-hr pump report and 5 min Water Health scans at 9438 Doughty Road, Sarasota, FL 34236 At Well No 2 (see SWFWMD map) approx 2000ft below. Bring (Have me bring!) Engineers, ACOE, FDEP, FEMA and Respondents. Not crooked / find of Judges and Lawyers calling it 'Fictitious.' This 12yrs are a Major, sick Tragedy to all Fla, US and Humanity since the discovery! Shame on WASH, EPA, FDEP, Elan Musk, Bill Gates, WHO, CDC, Media, etc.
- (16)

## II. Legal Standard

(19) While a writ of Mandamus is an extraordinary remedy, its issuance is appropriate when necessary to vindicate the rights of citizens when a government agency or official has refused to perform a ministerial duty that the petitioner has established a clear legal right to see performed. Dante v Ryan, 979 So. 2d 1122, 1123 (Fla 3d DCA 2008); Fla League of Cities v. Smith, 607 So. 2d 397, 400-401 (Fla 1992); State, ex Rel Carter v. Bentley, 457 So. 2d 1072 (Fla 2d DCA 1984). A duty or act is "ministerial," for purposes of mandamus relief, when there is no room for exercise of discretion and performance being required is directed by law. Town of Monticello v. Reahler, 674 So. 2d 789, 790 (Fla 4th DCA 1996).

## III. Request for Relief

(20) Petitioner request Respondents to do their Jobs, really US Resource with FDEP, Consultants, Peltance. Spring water v. Treated is TRIVIAL! Allow lower water bills/Pipe PLEASE!

(21) Petitioner request to Hey Moody, New Desmots, FDE and BPBK do their Job and arrest Ryan Snyder and 'Organized DOJ Fraud' gang, 72 Partners LLC, for 'Fraud Transfer'. How hard is it to dislodge 95 acres vs 2380 acres!! Arrest Everyone who know especially and just watched for 4 years. This is a Global issue of 'Medicinal Water' and National Defense per Title 50 US § 3. See Gubbati "Neutralization of National Defense for Florida Peninsula" Plan (7) CENTCOM to SOUTHCOM/Panama

Request for Relief (Cont.)

(22) Investigate why Bond went up on 2012 Hillsborough case and arrest all State Attorneys, Judges and Cops, Sheriffs, and Bankruptcy Trustee Luis Rivera for a 'Organized Fraud' attack. Arrest Greenberg Treasury and local leaders for Treason.

(23) Report all issues to be considered for a FULL PARDON and Immediate Release of all charges, by Ron Desantis on US President. See Gilbrech v. Rubio, et al; for Petitioner.

(24) Help Tampa to South Florida Citizens and Petitioner with a Conservation Agreement. See Plans submitted on Gilbrech v. FBI CASE IN CIR 12 CASE 2024-CA-0157-NC. and on Gilbrech's Blue Gold.com. Petitioner has permits/Plans ready. See CASE 2021 CA 1009 NC, 72 Partners v. Gilbrech in Sarasota. See Workshop letter to Manatee County in 2023, with Final Plans. Call John Mann, P.E. at Fort Myers FDEP with 2020 permit Documents. Call FDOT Dist 2, @ 86 for 'Close to the Heart' Alignment Plans per Gilbrech v. Council of National Defense, et al, via Title 50 US § 3; Title 42 USC.

\* (25) Have Florida AG Commissioner verify legal Descriptions with Surveyors/RS on Sept 11, 2020 advertisement vs. Oct 5, 2020 online Site (Fixed) by 72 Partners LLC and Attorney Ryan Snyder. Verify Public Acquisition after Fraud and ESAP easement (\$5.5M) by Sarasota Commission Fraud (8) on Tax Papers/Map Fraud (2021/2022)

### No other Means to Obtain Relief

(26) Petitioner has no other means to enforce his rights. Mandamus jurisdiction of State Courts extends to its officers, employees, or agencies of the State of Florida, Art V, § 5(b) Fla Const. There is no method of enforcement by Petition of State Legislature; and re local leaders, so Petitioner asks How Democrats and Florida House of Representatives to verify resource and fraud with licensed professionals and LIVE UP TO YOUR OATH OF OFFICE and Best, if any. To your Jobs vs Talk.

### Importance Beyond this Case

(27) Equal Rights challenges under a States Constitution to perform its set of fiduciary duty to inspect 'fraud', fabricated Art-15 award to subdue a 'Professional Engineer' who found a resource that will CONTROL DEVELOPMENT, keep construction recommendations at Pipe Certifications of 'Unique Water Supply' are never reviewed. Writs of Mandamus being supervisory in nature are appropriate to cure such issues, see United States v. Bertoli, 994 F.2d 1002, 1014 (3d Cir 1993). There is nothing that would render it inappropriate to issue the writ. see In re Volkswagen of America, Inc. 545 F.3d 304 (5th Cir 2008).

### Federal and State Constitutional Provisions

(28) All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and the State wherein they reside. No State shall abridge the

### Federal and State Constitutional Provisions (cont.)

the privileges or immunities of Citizens of the United States; nor shall any State deprive any person of life, liberty or Property, without due process of law; nor deny to any property, without due process of law; nor deny person within its jurisdiction the equal protection of the laws.

U.S. Const. Amend. XIV, § 1.

### Conclusion

Wherefore, a writ of Mandamus must issue compelling the Respondents to ① Verify Resource, ② Obtain meta data on Chris Stearns AC-15 email (NOTHING EXIST), so Arrest and Pardon Charges. ③ Verify why Misdemeanor Pardon rose to \$300k after World Resource (then all charges Dropped 1 yr later) and Arrest State/Judges/Lawyers/Police. ④ Verify 'Fixed Transfer' and RETURN LAND TO CECIL DAUGHTREEY FAMILY IMMEDIATELY. ⑤ Work with Petitioner, Ron Desantis for a CONNECTION AGREEMENT with Petitioners Civil Permit/Plans to provide infrastructure Spring water to Taps of Florida; show Middle East how to find more. See Gilboadi v. United Nations, et al., Lower Food, Water, Bills.

  - Fla Statute § 95 - Undue Influence / Fraud (organized by DOJ)

(9) Here 72 Partners does the 'Fraud Transfer' by switching 2380 acres to 95 acres day of but then DOJ attack GILBERT the Defendant during litigation with false charge, to sell to County for \$5,000,000 in tax base in Nov 2021 and Jan 2022, while Judge Peter, Ed Brusky and Sherill Hoffman Attack innocent Engineers of Decard and 'Protect the Community'; hence "Organized Fraud"

Defendant Mistaken by Judge Armed with this case dismissed without Defendant Present

(10) Transcripts in 2021 CF (7) 07559 NC show extreme

(11) Organized Fraud by State Courts, Clerks and Cross-Movants working for Plaintiff to subdue him with court audio shut-off, no jury allowed to see defenses.

(12) Defendant's criminal defense attorney Daniel Hernandez filed a Motion for New Trial, the Pader court heard his explanation of Pader's EXTREME ABUSE OF DISCRETION and Prejudice in trial. Transcripts forwarded to Florida Supreme Ct, JQC and Bar Complaints under Federal Crimes and State Crime reviews Sent to over 20 US Senators and copied in Federal Cases.

(13) Judge Pader is/was in Conflict with a Writ of Prohibition during trial in State and Federal Courts. Knew I didn't have an attorney and up charges in Voice Dire and refuse continuance to get Council - Organized attack to dismiss this case and related cases, hide 'Fraud Transfer' by Cir 12 and Supreme Commissioners/Clerks.

(14) Mistrial Transcripts being produced to file more JAC for False Imprisonment to hide National Defense Resource with Plaintiff and 'Organized gang' (DIN 629) Pader case 2021-07559.

(15) Judge Pader attacked Defendant and the Community since 2021 with Plaintiff/Cross-Movants for 4-years. Knowing Defendant (GILBERTI) lives on Ft. Myers Beach, destroyed in Hurricane Ian.

(16) Judge Padar attack Defendants LIFE on Aug 13, 2024 with Sheriff Holman Transport after hearing by leaving her in unattended Van with 'NO AIR' and extreme (Almost Died) Heat, locked away 15 min in a garage after she set her decision for retrial on 9-11, 2024. See Gilberti v George Bush, et al Cir 15 case 2023-CA-016763-MS being compromised by Padar illegal incarceration.

(17) Judge Gaudie in Tampa dismissed this case in 2020 as (Padar case) "ridiculous," had a 4-hr evidence hearing showing T2 Partners, Sarasota Detective Wyche, lying on stand with 'Friend Transport' All Caught and Judge Padar continues attack with County, Tom Widen / State. See VOP hearing for Hillsborough Cir 13 case 16-CF-010976-A, State v. Gilberti with Chris Shaw AL15 criminal setup. See video link on 'Request to Prosecute' (DIN 197) on Gilberti v. T2 Partners case 2019 CA 04532 NC, Cir 12 Sarasota, Judge Walker.

Every Dismissal on this case Gilberti (Defendant)  
WAS NOT ALLOWED TO ATTEND and/or Blocked/Cheated.

(18) This point with the presence of Sheriff Holman (1st Dismissal) and Sarasota Tax Apparatus (March 27, 2021 Dismissal) the Defendant Gilberti was illegally attacked by Sheriff / Judge Padar to block his presence. Criminal courts and Cops intervening and picking sides on Complex Litigation with NO TITLE Experience. Stated in Tampa VOP Hearing (9) by Gaudie is 'ridiculous' to be involved.

(19) This 'Organized Fraud' intervened on this case in the same "ongoing systematic conduct to defraud the Public" of the extremely high level of Service (LOS) in Drinking Water supply. See Gilbert v. Council of National Defense, ACOE, NRDC; case also compromised with a syndicated group of State and Federal Agents/officers conspiring against USA and Defendant per Title 18 USC § 241 & 242 and it is still ongoing today.

(20) Defendant has been illegally incarcerated, taken from the project and his children, wife and home so this 'Organized Fraud' group can mail higher water, power and utility bills with much less healthy treated water. All civil rights taken with systematic fraud to take advantage on this case.

Judge Walker made mistake per  
Fla. Civ Rule 1.540 (1)(2)(3) and can  
reopen case and expose 'Fraud Transfers' by TZ Partners

(21) After Oct 5, 2020, Cecil Daughtrey and Gilbert, both filed objections. Judge Walker was on his First Day assigned to a 9 yr ongoing attack. He made a mistake and sees it now per hearings on Gilbert v. TZ Partners, LLC, put a stay to help USA.

(22) Rule 1.540 allows case to be re-opened within one year for fraud in sections (1)(2) or (3). Collectively this Motion suffices. Judge Walker issued stay in Quet Title case with understanding of mistake from his past (10) ruling per 2011 CA 04209 NC.

(23) Almost 10 or more State and Federal cases would be eliminated or never occurred if 72 partners would have left an invalid mortgage (Predatory Loan w/no chain of Title); but this goes back to General Development Corp (GDC) knew something unique was somewhere out at the Daughtry Ranch since the 1991 Loop Option Plan with Peace River Water Board (SFWMD).

(24) Once GUSSEN TI was hired he found the NSA, EPA, DOI secret and then showed the world how to find millions more by mass emails and secrets. See Gilbert v United Nations, et al in Southern New York US Dist Court. See Gilbert v. Council of National Defense, et al.

(25) Multiple Universities including FGCU, FSU, USF, UF, UM in Florida have recently contacted Gilbert and his family on attack, Resource and Plans. As well as 'Fund Transfer' by organized gangs, Ron Desantis, Harris, Trump, Biden and Media. USCA has NO help from Fed or State, but the locals are coming up after 12yrs of Treachery. Son is Grad Engineer FGCU, now taking 2nd Degree in Civil Engineering. Except Rick Scott!

(26) Judge Walker can be a hero to America and redeem Circuit 12 by re-opening case, exposing issues in an evidence hearing, to reopen case. Call in Ryan Snyder for SIMPLE QUESTIONS w/ Sheriff and Internal Affairs, Ashly Moody in Tallahassee. It's worth it; it's a civic duty due to the Global/USA Impacts to Economics, Jobs, Healthcare. Forget (1) the US Election. Bring 2020.

Gilberti (Defendant) still has Mineral  
Rights and Sec 1 & 2 (360 acres) and Lien  
was valid during Sarasota Purchase

(27) Joseph D. Gilberti, P.E., (Engineering Contractor PE#56079)  
lien Joseph D Gilberti the mineral right and land owner  
in this defense from TZ attack. TZ partners is still in  
a Fraud Transfer but was paid \$5,000,000 dollars by Sarasota  
County to pay off DOJ, lawsuits, Sheriff's to attack  
Gilberti to hide US Resource. A systematic game of ongoing  
conduct at the Hillsborough and Sarasota Sheriff and State  
Attorneys office, while media and Politicians help by writing  
and helping in back of scene. The resource is too valuable.

(28) All Professional Engineers, Consultants say it's real. All  
Federal Judges never came to site and did any qualified  
study, say it's 'Fabricious'. Coordinated Fraud with Fed/State  
officers on what we are told is the No 1 Resource in USA.  
'If you have the mineral rights.'

(29) This project could move forward and feed 1/2 of State  
from Tampa to Miami. See Gilberti v. Council of Nod/Y Defense  
but Judge Jader and Tom Wilton here with a 'Organized  
Fraud' gang takes the owner/Engineer & Record off the  
sheet to hide the resource is inherently from USA.

(30) Sarasota County and T2 Partners LLC committed multiple felonies selling / purchasing Gilberti and Doughty land knowing of Fraud Transfer and existing liens DISMISSED on March 27, 2024, without Gilberti present. Hidden by T2, Sheriff, State and Judge Pinder.

### Conclusion

(31) This case should be re-opened to allow Defendant(s) to come into an evidence hearing, get a connection agreement with Gilberti's Infrastructure FDEP Permit Plans (over Signature). Fla. R. Civ. P. 1.540 (1)(2)(3) allows per Motion provides. Help Region by admitting a mistake.

(32) Wherefore, Defendant prays Court will re-open case and re-unstate C.R. Recording of liens stopped illegally on March 27, 2024 per this case. Allow region to have expeditiously and help redeeming DOJ, Sarasota Commission in arbitration.

Dear Honorable Chief Judge Moreland,

My name is Christine Gilberti, and my husband is currently being held with no bond at Sarasota county jail. We have been waiting for 8 months for Judge Padar to make her ruling on whether my husband will be granted a New Trial.

My husband was found guilty of Lien fraud during a trial that should not have even taken place. My husband was already acquitted on the same charge on a VOP with Judge Goudie out of Tampa. Judge Goudie did not see Lien fraud and during the VOP hearing we were able to question the detective. During that hearing we were able to determine that my husband's arrest was a ploy to make him unavailable for his Civil Cases. Also, the Detective Wyche (whom had never investigated lien fraud prior) was unavailable for trial, along with several other witnesses that were subpoenaed for trial.

Judge Padar has described my husband as a risk to the community. Judge Padar did not allow my husband to bring up his previous acquittal to the jury, nor was he allowed to bring up any of the previous false arrests that he has been subjected to. Padar did not permit any of his supporting evidence and when jury selection began, she upped his charges.

I am not sure if you are aware, but my husband is a Professional Engineer and we have been trying to permit an Alkaline Spring to the surrounding areas. Our property (containing the water source) is currently in litigation as a fraudulent transfer has taken place. This fraudulent transfer has been spelled out in several cases within your circuit. I will attach the fraudulent transfer for your review.

We currently have permits in for the pipeline. The project is called "Closer to the Heart Alkaline Spring Transmission Pipeline".

Our goal is to provide a more healthy and viable drinking source to the public along with lower water bills.

My family has been to Judge Padars courtroom numerous times while she continues to postpone her decision. Our family has gone through 2 hurricanes and My boys, and I are trying to put our house back together, all while my husband is held with No Bond.

I also would like to make you aware that the charge in Tampa that my husband took a plea on (under duress) was later proven to be another fake charge. Our old public Defender Christopher Shaw was pulled from our case just before trial. This case was what first got my husband arrested in 2013 (when we discovered the water supply). Judge Conrad thought we would not proceed with trial without the assistance of Christopher Shaw, but we continued to trial, and they dropped the charges. We later saw Christopher Shaw went out on his own and we contacted him for services as he was witness to all the major attacks on our family

since the discovery of the water supply. He returned our call and then faked an email Threat from my husband. My husband was arrested and held with no bond for 9 months on that charge all while the entire Public defender's office and state prosecutors knew it was a falsified email.

Our family has endured more than most will in a lifetime. My two boys have been witnessed to the most corrupt DOJ now for 12 years. Imagine finding something that could help so many people and your family getting attacked for trying to bring it to the public.

We would like to understand why a decision takes so long when the Judge was present at the trial. I do not believe my husband got a fair trial and I also feel Judge Padar has not been fair or impartial.

The Fraud Transfer case is with Judge Walker 2019CA004532NC  
Or 2024CA00155NC Hunter Carroll case in which he as an "Administrative judge" declared my husband to be a vexatious litigate to stop him from filing a Mandamus or future lawsuits without approval.

My husband has watched numerous prisoners be released or given a bond with crimes that are horrific, yet he is being held captive for a supposed fraudulent document.

If you would like any follow up documents, I will be happy to provide them. I have proof that the Fake Christopher Shaw e-mail was never found and my husband was held without the "best evidence" rule for 9 months. Now being held for 8 months labeled as a Risk to the Community for wanting to bring Spring Water to the tap.

Respectfully,

Re: CLOSER TO THE HEART

Over the past 13 years I have supervised & used downhole video units and water quality logging trucks in a variety of areas including Closer to the Heart. Based on the results obtained during our pull back zone testing, water quality is extremely good for both the area and depth, the pH values during zone testing ranged from 7.8 to 11

If you have any questions about the above information or if we may be of any further assistance please don't hesitate to call. Thank you.

ORDER GRANTING IFP  
APPLICATION IN PRISONER CASE

LAURA TAYLOR SWAIN, Chief United States District Judge:

Plaintiff's application for leave to proceed without prepayment of fees is granted. A prisoner bringing a civil action is required to pay the full \$350 filing fee even when proceeding *in forma pauperis* (IFP), that is, without prepayment of fees. *See* 28 U.S.C. § 1915(b)(1). The Court must collect, when funds exist in a prisoner's account, an initial partial filing fee<sup>1</sup> plus monthly payments. The agency having custody of the prisoner shall forward payments from the prisoner's account to the Clerk of Court each time the amount in the account exceeds \$10, until the filing fees are paid. 28 U.S.C. § 1915(b)(2); *see also* In the Matter of the Prison Litigation Reform Act, Second Amended Standing Order, M10-468 (S.D.N.Y. May 26, 2010) (requiring agencies to calculate and remit the statutory fees for litigants in their custody).

Plaintiff has executed a prisoner authorization that authorizes the agency having custody of Plaintiff, or any agency to which Plaintiff is transferred, to send a certified copy of Plaintiff's prison trust fund account for the past six months to this Court. The prisoner authorization further authorizes the agency to calculate the amounts specified by 28 U.S.C. § 1915, to deduct those

---

<sup>1</sup> The initial partial filing fee is 20 percent of the greater of – (A) the average monthly deposits to the prisoner's account; or (B) the average monthly balance in the prisoner's account for the 6-month period immediately preceding the filing of the complaint. 28 U.S.C. § 1915(b)(1)(A).

amounts from Plaintiff's prison trust fund account (or institutional equivalent), and to disburse those amounts to this Court.

### **CONCLUSION**

The Clerk of Court is directed to send a copy of this order and the prisoner authorization to the agency having custody of Plaintiff. That agency is directed to forward copies of Plaintiff's prison trust fund account for the past six months and to disburse the payments required under 28 U.S.C. § 1915 to the United States District Court for the Southern District of New York and to include the above docket number on the disbursement before sending it to the Court. If Plaintiff is transferred to another facility, the current facility shall provide a copy of this order to the facility to which Plaintiff is transferred.

Finally, it is Plaintiff's obligation to promptly submit a written notification to the Court if Plaintiff's address changes, and the Court may dismiss the action if Plaintiff fails to do so.

Dear Honorable Chief Judge Moreland,

My name is Christine Gilberti, and my husband is currently being held with no bond at Sarasota county jail. We have been waiting for 8 months for Judge Padar to make her ruling on whether my husband will be granted a New Trial.

My husband was found guilty of Lien fraud during a trial that should not have even taken place. My husband was already acquitted on the same charge on a VOP with Judge Goudie out of Tampa. Judge Goudie did not see Lien fraud and during the VOP hearing we were able to question the detective. During that hearing we were able to determine that my husband's arrest was a ploy to make him unavailable for his Civil Cases. Also, the Detective Wyche (whom had never investigated lien fraud prior) was unavailable for trial, along with several other witnesses that were subpoenaed for trial.

Judge Padar has described my husband as a risk to the community. Judge Padar did not allow my husband to bring up his previous acquittal to the jury, nor was he allowed to bring up any of the previous false arrests that he has been subjected to. Padar did not permit any of his supporting evidence and when jury selection began, she upped his charges.

I am not sure if you are aware, but my husband is a Professional Engineer and we have been trying to permit an Alkaline Spring to the surrounding areas. Our property (containing the water source) is currently in litigation as a fraudulent transfer has taken place. This fraudulent transfer has been spelled out in several cases within your circuit. I will attach the fraudulent transfer for your review.

We currently have permits in for the pipeline. The project is called "Closer to the Heart Alkaline Spring Transmission Pipeline". Our goal is to provide a more healthy and viable drinking source to the public along with lower water bills.

My family has been to Judge Padars courtroom numerous times while she continues to postpone her decision. Our family has gone through 2 hurricanes and My boys, and I are trying to put our house back together, all while my husband is held with No Bond.

I also would like to make you aware that the charge in Tampa that my husband took a plea on (under duress )was later proven to be another fake charge. Our old public Defender Christopher Shaw was pulled from our case just before trial. This case was what first got my husband arrested in 2013 (when we discovered the water supply) . Judge Conrad thought we would not proceed with trial without the assistance of Christopher Shaw, but we continued to trial, and they dropped the charges. We later saw Christopher Shaw went out on his own and we contacted him for services as he was witness to all the major attacks on our family

since the discovery of the water supply. He returned our call and then faked an email Threat from my husband. My husband was arrested and held with no bond for 9 months on that charge all while the entire Public defender's office and state prosecutors knew it was a falsified email.

Our family has endured more than most will in a lifetime. My two boys have been witnessed to the most corrupt DOJ now for 12 years. Imagine finding something that could help so many people and your family getting attacked for trying to bring it to the public.

We would like to understand why a decision takes so long when the Judge was present at the trial. I do not believe my husband got a fair trial and I also feel Judge Padar has not been fair or impartial.

The Fraud Transfer case is with Judge Walker 2019CA004532NC  
Or 2024CA00155NC Hunter Carroll case in which he as an "Administrative judge" declared my husband to be a vexatious litigate to stop him from filing a Mandamus or future lawsuits without approval.

My husband has watched numerous prisoners be released or given a bond with crimes that are horrific, yet he is being held captive for a supposed fraudulent document.

If you would like any follow up documents, I will be happy to provide them. I have proof that the Fake Christopher Shaw e-mail was never found and my husband was held without the "best evidence" rule for 9 months. Now being held for 8 months labeled as a Risk to the Community for wanting to bring Spring Water to the tap.

Respectfully,

Christine Gilberti  
812-482-7918

Thank you,

Christine Gilberti

To Whom it May Concern:

Re: CLOSER TO THE HEART

Over the past 13 years I have supervised & used downhole video units and water quality logging trucks in a variety of areas including Closer to the Heart. Based on the results obtained during our pull back zone testing, water quality is extremely good for both the area and depth, the pH values during zone testing ranged from 7.8 to 11

If you have any questions about the above information or if we may be of any further assistance please don't hesitate to call. Thank you.

Sincerely,

*Jim Murray*

ORDER GRANTING IFP  
APPLICATION IN PRISONER CASE

LAURA TAYLOR SWAIN, Chief United States District Judge:

Plaintiff's application for leave to proceed without prepayment of fees is granted. A prisoner bringing a civil action is required to pay the full \$350 filing fee even when proceeding *in forma pauperis* (IFP), that is, without prepayment of fees. *See* 28 U.S.C. § 1915(b)(1). The Court must collect, when funds exist in a prisoner's account, an initial partial filing fee<sup>1</sup> plus monthly payments. The agency having custody of the prisoner shall forward payments from the prisoner's account to the Clerk of Court each time the amount in the account exceeds \$10, until the filing fees are paid. 28 U.S.C. § 1915(b)(2); *see also* In the Matter of the Prison Litigation Reform Act, Second Amended Standing Order, M10-468 (S.D.N.Y. May 26, 2010) (requiring agencies to calculate and remit the statutory fees for litigants in their custody).

Plaintiff has executed a prisoner authorization that authorizes the agency having custody of Plaintiff, or any agency to which Plaintiff is transferred, to send a certified copy of Plaintiff's prison trust fund account for the past six months to this Court. The prisoner authorization further authorizes the agency to calculate the amounts specified by 28 U.S.C. § 1915, to deduct those

---

<sup>1</sup> The initial partial filing fee is 20 percent of the greater of – (A) the average monthly deposits to the prisoner's account; or (B) the average monthly balance in the prisoner's account for the 6-month period immediately preceding the filing of the complaint. 28 U.S.C. § 1915(b)(1)(A).

amounts from Plaintiff's prison trust fund account (or institutional equivalent), and to disburse those amounts to this Court.

### **CONCLUSION**

The Clerk of Court is directed to send a copy of this order and the prisoner authorization to the agency having custody of Plaintiff. That agency is directed to forward copies of Plaintiff's prison trust fund account for the past six months and to disburse the payments required under 28 U.S.C. § 1915 to the United States District Court for the Southern District of New York and to include the above docket number on the disbursement before sending it to the Court. If Plaintiff is transferred to another facility, the current facility shall provide a copy of this order to the facility to which Plaintiff is transferred.

Finally, it is Plaintiff's obligation to promptly submit a written notification to the Court if Plaintiff's address changes, and the Court may dismiss the action if Plaintiff fails to do so.
